

### **Control Panel**

The gen-set control panel has short dimensions (86x124mm, 3.4x4.9in.). It is supplied with 10mt wire shielded. Designed with the most modern technology, it is supplied inside with a microchip. The keyboard is made by polyester shockproof with grade of protection IP54 and includes:

- Hour-meter.
- Start-stop button.
- Alarm lamps and low oil pressure.
- Engine and alternator high temperature alarm lamps

### **Engine**

- Easy access in case of maintenance to the feeding system and lubrication, of the sea/water pump and the air filter.
- Safety stop in case of low oil pressure.
- Safety stop in case high water/exhaust gas temperature.
- Double vibration dumping system.
- Oil filter.
- Oil drain pump.

#### **Alternator**

- Synchronous, 2 poles, self-regulated, brush less self-excited.
- Rotor and stator epoxy resin coated against external agents.
- Insulation class H.
- High temperature coilings protection.

## Soundproof cabin

A new project engineering design with a structure of a draw piece of aluminum supporting, painted aluminum panels of high resistance to external agents.

Of limited weight and easy accessibility to the inner cabin in case of maintenance services.

# IS 2.6 2 kW 50 Hz 2.2 kW 60 Hz

### THE INTERCOOLER W/A

Assures the perfect functioning of the generator independently of the external ambient temperature, therefore the alternator and the engine will work at ideal temperature optimizing the performance and reliability of the gen-set.

Continuous power (kW) 1,7	1,9		
Battery charger output (A-V)	10-12		
Power factor ( cos ø )	1		
Insulating class	Н		
Voltage stability	±10%		
Frequency stability	±5%		

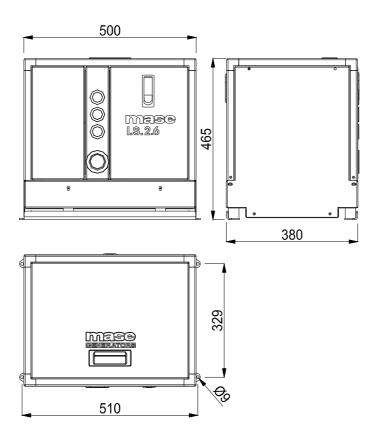

### Cooling system

The cooling system of the engine is based on a heat exchanger (sea water/air) with the main function of reducing the temperature of the air flow inside the box. The system provides an efficacious cooling of the alternator and the optimal temperature for the best performance and reliability of the gensets; despite its on board allocation and room temperature.
